

PRESS RELEASE

February 6, 2008

## **manos – shop for selected design and craft products opens March 6**

manos is the creation of ceramicist Karin Eriksson. After conquering the world with her ceramics, she now opens up a lifestyle shop online and at Överjärva Gård, a rural farm just ten minutes from Stockholm city centre.

Alongside Eriksson's own collections, manos will showcase a selection of design and craft products from all over the world seeking the genuine, beautiful, handmade, cutting edge and sustainable.

On opening day the visitor will find the "Something new something old" bags from dutch ZO design, Serroto's hand printed notebooks from Portugal, organically grown teas from Samova in Hamburg – all in a beautifully inspiring environment.

Small exhibitions will visit manos every other month, the first one being ceramics by British furniture designer and ceramicist Daniel Reynolds.

Opening at Överjärva Gård Thursday, March 6. Opening hours: Thursday – Saturday 11-15.

manos online will open later in March.
